**COURTHOUSE SQUARE REUNIFICATION COMMUNITY MEETING: IMAGINE WITH US**

**SANTA ROSA, CA (DECEMBER 3, 2015)** — Santa Rosa seeks community input to help guide local design team [Carlile Macy](#) on the reunification of Courthouse Square on Saturday, December 12, 2015, from 10 AM to 1 PM at 19 Old Courthouse Square. The public entrance for this community meeting will be accessible on Third Street and there will be signage to help guide people.

This upcoming community meeting will be the first of two public meetings. At this first meeting, city staff and the Carlile Macy design team will receive input about what the community would like to see in the new redesign.

At the second community meeting in early January, the design team will present concepts based on feedback received from the December meeting and from the [online survey](#).

The Courthouse Square reunification project is the highest profile public infrastructure project for downtown Santa Rosa in the past 30 years. The City Council voted to reunify Courthouse Square to create a dynamic community gathering space and encourage downtown investment.

Outreach and the construction project timeline are scheduled to minimize construction impacts to downtown businesses and to provide optimal community service. For more information on the City's Courthouse Square Reunification project, please visit: [www.srcity.org/chs](http://www.srcity.org/chs)
