Subject: City District Elections

Hi Chris,

I just wanted to take a little time out and talk with you about the District Elections that we as a city are facing. I think it would be prudent of the City to carve out council district boundaries so that at least three of the seven districts have a footprint within the City's general plan core area. Without that, we run the risk of losing a downtown we all want; a community gathering place, a vibrant place that comes alive at night and is the place to be during the day. The CBD could be jeopardized as well, changes to city policy, long needed, treating the downtown area more equitably in terms of park and capital infrastructure public fees and revenue allocations, would become almost impossible, and so on...

As you know, we have so much in our downtown and so much more to make happen. We have built good momentum in reunifying the square. Let's not lose it now when we are so close to getting the downtown we all want! Let me know what else I can do to help in this effort. Thanks!

Best,

Michael
