VALUATION OF PROJECT: \$ _____ 1% ART VALUATION: \$ _____

** The project valuation reported for compliance with public art requirements must reflect the valuations provided on all applicable building permit applications.*

For placing art on-site, submit the following information with this application:

- Site plan for the project showing the proposed location of the art within the development site.
- A color elevation rendering of the artwork and site plan showing the proposed artwork in its proposed location (to scale and clearly showing the artwork in relation to its surroundings).
- Artist's resume with examples of past work (this can be a link to the artist's website).
- Artist's statement describing the piece, the concept behind the work and other relevant information on the design.
- Artwork budget demonstrating eligible expenditures (see City Code 21-08.050 for list).
- Value of installed artwork \$ _____.

I certify that the foregoing statements and information are true and that any submitted material, statements or plan designs are correct to the best of my knowledge.
