INCLUSIONARY HOUSING ORDINANCE

The City's 2016 Housing Action Plan seeks to increase affordable housing development—a key tool in that effort is the Housing Allocation Plan (inclusionary housing) Ordinance. The Ordinance requires that housing projects include affordable units on-site or contribute funds for affordable housing development in the City.

Share your input on the feasibility study and White Paper, which provide background analysis and outline policy options for an update to the City's Housing Allocation Plan.

Visit srcity.org/2556/Inclusionary-Housing-Policy to view the White Paper and feasibility study.

COMMERCIAL LINKAGE FEE

The Housing Action Plan also calls for the preparation of the Commercial Linkage Fee Study to evaluate if such a fee may provide the City with another affordable housing funding source to help increase inclusionary housing.

A **feasibility study**, which provides background analysis and outlines policy considerations for a possible commercial linkage fee study has been prepared.

Visit srcity.org/2556/Inclusionary-Housing-Policy to view the feasibility study.
