

CONSTRUCTION HARDSHIP FORM FOR PROJECTS LESS THAN OR EQUAL TO THE VALUATION THRESHOLD

The provisions of Section 11B-202.4, Exception 8, apply to existing buildings or facilities used as public buildings, public accommodations, commercial buildings or public housing. When **existing buildings** or facilities undergo alterations, structural repairs, or additions, an accessible path of travel shall be provided to the specific area of construction.

When the adjusted construction cost¹ of **alterations, structural repairs, or additions to existing buildings and facilities within three years of the original alteration** does not exceed a valuation threshold of \$170,466 (2020), the cost of compliance with Section 11B-202.4 of the 2019 California Building Code shall be limited to 20% of the adjusted construction cost of alterations, structural repairs or additions.

In choosing which accessible elements to provide, priority should be given to those elements that will provide the greatest access in the following order:

1. An accessible entrance;
2. An accessible route to the altered area (see definition of accessible route Section 202 & 11B-206.2.1 for more information on accessible routes and site arrival points);
3. At least one accessible restroom for each sex or a single accessible unisex restroom;
4. Accessible telephones, if provided, serving the area of alteration, structural repair, or addition;
5. Accessible drinking fountains, if provided; and
6. When possible, additional accessible elements such as additional parking, signs, storage, and alarms.

Please complete the attached worksheet, and prepare a site and floor plan of the existing and proposed accessibility improvements along the accessible route to the area of alteration that shall be submitted to the Building Division in duplicate, prior to completing your plan review. One copy of the approval or denial of the form will be returned to the applicant.

Please note that this request for hardship is subject to approval by the Building Official.

Additionally, barrier removal is ongoing obligation for ADA and this application does not exempt the applicant of any obligations to removing barriers in a reasonable time frame and by signing this report you understand that this 20% is for this addition/alteration alone.

*If an area has been altered without providing an accessible path of travel to that area, and subsequent alterations of that area or a different area on the same path of travel are undertaken within three years of the original alteration, the total cost of alterations to the areas on that path of travel during the preceding three-year period shall be considered in determining whether the cost of making that path of travel accessible is disproportionate.

¹ Adjusted cost of construction does not include the cost of alterations to path of travel elements required to be upgraded outside the area of alteration, structural repair, or addition.
