I. PURPOSE

The purpose of this document is to specify the policies and procedures that support a prudent and systematic program for the investment of surplus funds.

II. REFERENCE

1. City of Santa Rosa Resolutions No. 8361 & 17133
2. State of California Government Code Section 53601 et sec

III. SCOPE

This investment policy applies to all funds managed directly by the City of Santa Rosa, excluding bond proceeds and pension obligation funds. The bond proceeds and pension funds are governed by the terms of their covenants. The City maintains various portfolios including the City portfolio and special district portfolios. Each portfolio is managed separately but will be referred to collectively as the “portfolio” for purposes of this policy. All funds are accounted for in the City’s Comprehensive Annual Financial Report.”

IV. OBJECTIVES

The objectives, in priority order, of the City of Santa Rosa’s investment activities shall be:

Safety

Safety of principal is the foremost objective of the investment program. Investments of the City will be made in a manner that seeks to ensure the preservation of capital in the overall portfolio. To attain this objective, the City will endeavor to mitigate credit and market risk.

Liquidity

The City’s investment portfolio will remain sufficiently liquid to enable the City to meet all operating requirements which might be reasonably anticipated. This will be achieved through maturity diversification and purchases of securities with an established secondary market.

Yield

The City’s investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints, liquidity needs, and cash flow characteristics of the portfolio. Return on investment is of secondary importance compared to the safety and liquidity objectives described above.

V. STANDARDS OF CARE

Prudence

The City of Santa Rosa adheres to the guidance provided by the “prudent investor” standard (CA 53600.3) to insure that:

“When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency. Within the limitations of this section and considering individual investments as part of an overall strategy, investments may be acquired as authorized by law.

This standard of prudence is to be used by all investment staff and will be applied in the context of managing an overall portfolio.

Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions. Employees and investment officials shall disclose any material interests in financial institutions with which they conduct business. They shall further disclose any personal financial/investment positions that could be related to the performance of the investment portfolio. Employees and officers shall refrain from undertaking personal investment transactions with the same individual with whom business is conducted on behalf of the City.

Delegation of Authority

The authority to invest City funds rests with the Chief Financial Officer herein referred to as CFO, and his designated staff, herein referred to as investment staff. The City will establish written procedures for the operation of the investment program consistent with this investment policy. Such procedures will include explicit delegation of authority to persons responsible for investment transactions and shall be on file in the City. No person may engage in an investment transaction except as provided under the terms of this policy and the procedures established. The CFO shall be responsible for all transactions undertaken and will establish a system of controls to regulate the activities of subordinate officials.

The City may delegate its investment decision making and execution authority to an investment advisor. The advisor shall follow the policy and such other written instructions as are provided.

Investment Management Committee

An investment management committee shall be appointed by the City Manager for the purpose of determining investment strategies and to review performance. This committee will include a staff member representing the Board of Public Utilities and two staff persons as members at large. The committee will make recommendations to investment staff regarding portfolio diversification, economic outlook and overall investment risk management.

VI. AUTHORIZED AND SUITABLE INVESTMENTS

The CFO is authorized to invest in those investment vehicles allowed by Sections 53601, 53635 and 16429.1 of the California Government Code that are specifically addressed below. The City recognizes that investment risk can result from issuer defaults, market price changes or various technical impediments leading to diminished liquidity or loss of capital. Portfolio risk management and diversification are employed as a way to minimize the risks inherent in investing.

Credit criteria listed in this section refer to the credit of the issuing organization at the time the security is purchased. If a credit rating falls below the criteria stated, the City should be notified. In the event that an issuer is down-graded to below “A,” staff will prepare an analysis of the exposure to the City and will make a recommendation regarding possible sale.

VIII. INVESTMENT PARAMETERS

Diversification. The City’s investments shall be diversified by:

- Limiting investments to avoid over concentration in securities from a specific issuer or business sector (excluding Local Agency Investment Fund and U.S. Treasury securities)
- Limiting investment in securities that have higher credit risks
- Investing in securities with varying maturities
- Continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LAIF), or money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations

Maximum Maturities. To the extent possible, the City shall attempt to match its investments with anticipated cash flow requirements. Unless stated otherwise in Section VI of this Policy or approval made by the City’s executive body, the maximum maturity of the City’s eligible investments will not exceed five years.

Socially Responsible Investing. When possible, it is the City's policy to invest in companies that promote the use and production of renewable energy resources and any other socially responsible investments, subject to the prudent investment standard.

Community Banking Program. In an effort to encourage and support local banking institutions, the City will maintain a “Community Banking Program.” The goal of the City’s Community Banking Program is to invest a portion of City funds in qualified community banks. The Guidelines for the program are detailed in the Appendix of this policy.

Sale of Securities. The City does not make investments for the purpose of trading or speculation, but buys with the prevalent intent to hold securities to maturity. The prohibition of speculative investment precludes pursuit of profit through unusual risk or conjectural fluctuations in market prices. However, fluctuations in market rates or changes in credit quality may produce situations where securities may be sold at a nominal loss in order to mitigate further erosion of principal or to reinvest proceeds of sale in securities that will out-perform the original investment.

Authorized Broker/Dealers & Banks. Securities purchases and sales will only be executed through Primary Dealers or through direct purchase from the issuer or with non-Primary firms who meet the minimum requirements set forth below. The City will maintain active relationships with no more than six (6) firms who have been approved by the investment

COUNCIL POLICY			
Subject:	Policy Number	Effective Date	Number of Pages
STATEMENT OF INVESTMENT POLICY	000-26	4/9/2013	12 of 15

management committee. If the City uses an investment advisor, the advisor may be granted discretion to execute transactions utilizing their own list of approved broker/dealers.

- The firm must be registered with the National Association of Securities Dealers as a Broker or Broker/Dealer.
- Preference will be given to those firms that can provide other municipal references and demonstrate a working knowledge of California Government Code Sections 53601 et sec and 53635.

The City's investment policy will be provided to every broker/dealer providing services to the City. Prior to effecting a transaction, staff will obtain offers from a minimum of two dealers to insure that the purchase price is competitive.

IX. SAFEKEEPING AND CUSTODY

Internal Controls

The CFO will establish an annual process of independent review by the City Council appointed external auditor. This review will provide internal control by assuring compliance with State Code and internal policies and procedures.

Delivery vs. Payment

All investment transactions will be executed on a delivery versus payment basis. Securities will be held in safekeeping by a third party custodian designated by the City. The custodian will be required to provide timely (written or on-line) confirmation of receipt and monthly position and transaction reports.

X. REPORTING REQUIREMENTS

The CFO will provide to the City Council and City Manager monthly investment reports which provide a detailed summary of the status of the investment program. The monthly report will contain the following elements:

- A statement of compliance with the Government Code and this policy.
- A certification that the City has sufficient funds to meet expenditures for the following six-month period.

COUNCIL POLICY			
Subject:	Policy Number	Effective Date	Number of Pages
STATEMENT OF INVESTMENT POLICY	000-26	4/9/2013	13 of 15

- A listing of all securities held at the end of the reporting period showing maturity date, coupon rate and yield.
- Average weighted maturity of the portfolio.
- Comparison of Par, Cost Basis, and Market Values.

XI. PERFORMANCE STANDARDS

The City's portfolios are managed with the objective of obtaining a market rate of return, commensurate with identified risk constraints and cash flow characteristics. Because the composition of the portfolio fluctuates, depending on market and credit conditions, various indices will be used to monitor performance.

2. The bank must provide certification and supporting information that indicates at least 15% of the total bank investment portfolio is invested in activities within the City of Santa Rosa city limits;
3. To ensure the City of Santa Rosa obtains a competitive rate for investments in the program, any potential investment or proposal must enjoy a rate of return equal to or greater than the Local Agency Investment Fund (LAIF) rate existing at the time of the proposal;
4. Participating banks shall make an annual presentation to the City of Santa Rosa Investment Management Committee about their community involvement one month prior to the Certificate of Deposit maturity.
