

OUR FUTURE IN EVERY DRÖP

Power Washing Approved Variances

A pressure washing variance, which is issued to a power washing company and is good for the duration of the Stage 3 drought declaration, must be obtained prior to work starting. A variance is only granted for the following reasons:

- **Cleaning for health and safety reasons, including:**
 - Cleaning of human or animal wastes for the specific area that is affected by the waste
 - Cleaning of food wastes at restaurants or other eating establishments for the specific area that is affected by the waste and/or as per permit requirements
 - Removal of graffiti in the interest of public safety
- **Construction processes where power washing of hard surfaces is required as part of the process, including:**
 - Power washing of buildings as required for painting
 - Power washing of decks, patios, or other hard surfaces as required for sealing

The following companies (see page 2) have been approved for a power washing variance.
