RE: Urban Water Management Plan Requirements Addressed

Dear Peter Martin

The Department of Water Resources (DWR) has reviewed the 2020 Urban Water Management Plan (UWMP) for the City of Santa Rosa and finds that the UWMP has addressed the requirements of the California Water Code (CWC). The results of the review will be provided to DWR's Financial Assistance Branch.

The CWC directs DWR to report to the legislature once every five years on the status of submitted UWMPs. In meeting this legislative reporting requirement, DWR reviews all submitted UWMPs. DWR's review is limited to assessing whether suppliers have addressed the required legislative elements and does not evaluate or analyze the supplier's UWMP data, projections, or water management strategies.

If you have amended the 2020 UWMP and/or the 2020 Water Shortage Contingency Plan since the submittal of the original document(s), you must submit the amended document(s) to the DWR WUE data portal. Please contact DWR at UWMPhelp@water.ca.gov so that we can assist you in the process of this submittal. As stated in Water Code Sections 10640 and 10642, please note that amendments must have:

- 60-day notification
- Public notification
- Public hearing
- Adoption by the supplier's governing body. Documentation of the adoption must be included with the submittal.

If you have any questions regarding the review of the UWMP or urban water management planning, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Julie Ekstrom".

Julie Ekstrom, Ph.D.
Supervisor, Urban Unit
Water Use Efficiency Branch
