

## Rainwater Harvesting Rebate Program

**Rebate Amounts:** \$0.25 per gallon of approved rainwater storage \*, \*\*

*\* Maximum gallons eligible for rebate are calculated by based on square footage of irrigated landscape, the plant types, and the peak month (July) water requirement for planted areas.*

*\*\*Rebates cover materials only (labor not included) and cannot exceed the cost of materials.*

### Applicant must:

- Have a City of Santa Rosa water account (service) in their name for the property where the project will be completed.
  - If the property owner is the participant in the program and not the water account holder, they must receive written consent from the water account holder using a City of Santa Rosa Tenant/Account Holder Permission Form.
- Agree that the rainwater storage system will be retained while you are the current account holder or property owner. If hardware is replaced with anything less efficient or removed during that time, the entire rebate amount must be refunded.
- Have a landscape that requires irrigation.

### Steps to Participate:

- 1) Call Water-Use Efficiency staff at 707-543-3985 for pre-qualification, eligibility verification and a potential site visit. All rebates require a pre-qualification before any work is started.
  - a) Social distancing of 6 ft or more will be enforced at all times
  - b) A facial covering is required for everyone the Water Use Efficiency staff will be interacting with. Without compliance, the pre-qualification Check-up appointment will be cancelled. Water Use Efficiency staff will be wearing a facial covering for the duration of the appointment.
  - c) Yard space must be accessible without going inside a building. Technician will not enter a building to access yard space.
- 2) After eligibility of site is verified, you will receive your Rainwater Harvesting Eligibility Form (required to qualify for rebate).
  - a) Existing rainwater harvesting systems without prior approval are not eligible.
- 3) **Project Guidelines:**
  - a) 100 gallons is the minimum storage required to qualify for rebate. The maximum gallons of storage eligible for rebate is based on the square footage of irrigated landscape, the plant types, and their estimated peak month (July) water requirement. If the project does not exceed the maximum gallon amount, future additions may be rebated with approval.
  - b) Retain receipt(s) or invoice(s) itemizing the materials used in the project area. \*\*
  - c) Building Division involvement for possible permits, depending on project configuration:
    - i) If installing 5,000 gallons of storage or more in one area, you may need to get a permit for a concrete pad for support.
    - ii) If a permanent pump, pressurization, electrical power or a controller is installed (on any number of stored gallons) a permit and backflow device may be required for your potable water line(s).
    - iii) Per Santa Rosa City Code, setbacks and height specifications may be required, contact the Building Division for specific details.
- 4) Once project is finished based on above guidelines, and within the 120-day period, call 707-543-3985 to setup a post-inspection.
- 5) City staff will verify completion and that the project follows the guidelines above.
  - a) If approved, customer will sign Certificate of Participation and Approval agreeing to terms of rebate.
- 6) Rebates are processed within 4 to 8 weeks after completed project is approved.
